FULLVIEW MODERN GAS FIREPLACES  
FULLVIEW MODERN GAS FIREPLACE INSERTS

Model FV41 MOD with Wide Grace front

# Fire as art

Powerful. Alluring. Primal. Fire. Its warmth and light, once essential to our survival, still remains elemental in our homes. We organize our rooms—and our lives—around its glow. Mendota FullView Modern fireplaces and inserts transform the traditional fireplace into an elegant, sophisticated art form. It's a thing to behold indeed.

# Perfectly refined, thoroughly Mendota

Conventional log sets and brick linings give way to contemporary elements like glass fire stones, tumbled marble and natural river rock. Flames dance against a choice of panoramic panels that expand and amplify the nuances of the fire. And only FullView Modern fireplaces and inserts combine today's high-efficiency green technology with century-old Mendota craftsmanship.

Simply change the fire base or interior lining to give your Mendota Modern a completely different look. Explore all the options online at [www.mendotahearth.com](http://www.mendotahearth.com).

Model FV41 MOD with Narrow Grace front

# Make a statement

How do you turn cold contemporary into Modern cool? Add a Mendota FullView Modern fireplace or insert to bring sleek warmth to spare décor. Suddenly, a simple wall becomes an architectural design element that draws the eye to the fireplace first. Simple yet stunning, it makes a confident statement in any room.

# Redefining luxury

Is it bringing your fire to life with the touch of a remote control? Is it creating a design that perfectly reflects your personal style? Is it knowing you've made a wise investment in something you'll see and enjoy every day, guaranteed for a lifetime of beauty and comfort? Luxury is how you define it.

# Bold and clean

You want “wow,” Mendota FullView Modern delivers, with bold styling and clean lines that immediately let you know this is no ordinary fireplace. Etiquette tells us it’s impolite to stare, so don’t be surprised when friends suddenly master the art of the sidelong glance.

Model FV41 MOD

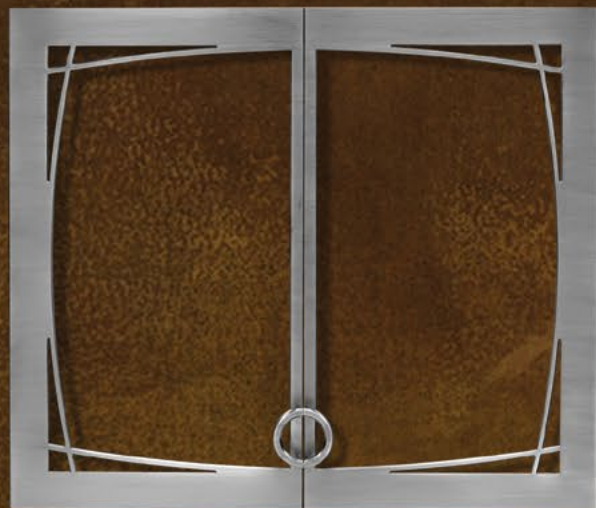

# Focus on the fire

The modern point of view may not include traditional logs, but flames remain integral to this moving art form. Here, Mendota FullView Modern fireplaces and inserts look to the past, drawing on Mendota's century of gas expertise to make the full, yellow, billowy flames that complete this modern masterpiece.

# Frame it in style

The Mendota FullView Modern fire is your canvas—now it's time to find the perfect frame. With so many styles, Mendota makes it easy to create a FullView Modern fireplace or insert that's yours—and yours alone. Choose from designer fronts in a myriad of elegant finishes or operable doors that let you enjoy the FullView fire to the fullest.

Visit [www.mendotahearth.com](http://www.mendotahearth.com) to view the complete collection of designer fronts and doors, watch videos of the fire in action and design your perfect fireplace online.

# Choices, choices

From spa-inspired elements like smooth river rock and rugged driftwood to the jewel-like “bling” of glass fire stones, Mendota FullView Modern fireplaces and inserts put a contemporary face on the conventional hearth. The design options continue with a selection of interior linings. Do you crave the dramatic, 3D look of the panoramic black porcelain reflective interior? Or does the panoramic copper or silver lining speak to your sense of style? The choice—as always—is up to you.

BurnGreen™ Comfort Control,  
With Just a Simple Touch

BurnGreen™ means burning smarter, giving you choices to conserve fuel and help the environment. It allows you to easily:

- Turn the pilot and burners on and off
- Adjust the heat output to your comfort
- Turn the blowers on and off or adjust blower air output
- Turn the FireLight on and off
- Even turn off the rear burner on mild days and late nights

You can accurately control room temperature using the remote control's smart digital thermostat. Simply set the temperature, and the burner will automatically turn down as room temperature nears the set temperature, eliminating "spikes."

Customize your FullView With  
One of Five Interior Linings

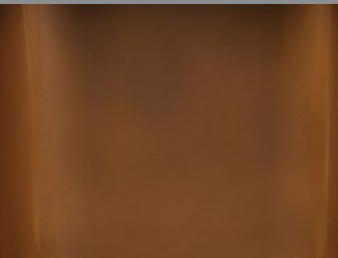

Choose from distinctive interior linings to make your Mendota FullView Modern fireplace or insert as engaging to look at when the fire's off as when it's on.

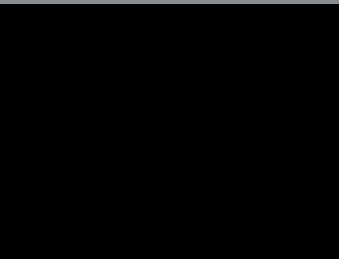

Panoramic Black Porcelain Reflective

Black Porcelain Reflective

Mendota Sealed Combustion,  
Direct Vent Technology

With Versiheat—Forced Air Heat Transfer System (optional)

Mendota's sealed combustion, direct vent system draws air for combustion from outside the home into a sealed firebox. Exhaust is expelled through a separate vent. Room air is heated and recirculated. The system keeps warm air *in* and cold air *out*. This assures high air quality, maximum efficiency and trouble-free operation in today's tight homes.

Versiheat moves heat from your fireplace to other areas in your home. Mendota fireplaces have connections for two Versiheat kits to allow the transfer of heat to two other areas. Heat is moved through ducts with their own blowers and thermostats. This optional system provides heat to more than one room and moves unwanted heat out of the fireplace.

Ask your dealer about other Mendota heat management solutions, or visit [www.mendotaearth.com](http://www.mendotaearth.com)

Versiheat available for FV41 MOD only

FireLight Accents your Hearth,  
With or Without Flames

Included with every FullView Modern model.

Use our FireLight accent lighting system when the fire's on to add extra drama and detailing to the interior lining and fire base. Or enjoy the ambiance and gentle glow without flames or heat during warmer months.

Save Energy by "Zone Heating" With  
a Mendota Gas Fireplace or Insert

Heat the room you use the most.

With an energy efficient Mendota gas fireplace or insert in the room you use the most, you can turn down the central heat, enjoy the beauty, warmth and fascination of Mendota's award-winning fire, and save valuable dollars on your energy bill.

Mendota FullView Modern FV41 MOD Direct Vent Gas Fireplace Specifications
